2
ZERO
HUNGER

Linking evaluation
with the VNRs for SDG 2

Presentation overview

- **SDG 2:** Objectives and aspirations
- **SDG 2 drivers:** Food systems, multisectoral nature and outcomes (Nutrition)
- **Why governance and partnerships:** Coordination architecture, frameworks and tools
- **Key milestones and opportunities:** Policy and institutional foundations
- **Lessons**
- **Next steps**

SDG 2: Objectives and aspirations

2 ZERO
HUNGER

End hunger, achieve food security and improve nutrition, and promote sustainable agriculture worldwide by 2030

- Ensure access to sufficient, safe, and nutritious food to meet dietary needs and preferences by all
- Facilitate all people to have the ability to acquire the food they need, without compromising their economic, social, and environmental well-being

SDG 2 drivers: Food systems, multisectoral nature and outcomes (Nutrition)

- Transformative development of Uganda, Africa and the world at large remains characterized by **chronically undernourished people**; with malnutrition taking a heavy toll across developing and developed nations
- Prevalence and incidence of overweight or obesity among children, adolescents and adults is high; prevalence and incidence of stunting and wasting
- The situation is largely explained by social, economic, political, cultural aspects among others

Drivers in Uganda

1. High Disease burden
2. Poor Hygiene (Water, sanitation and hygiene)
3. Dietary and lifestyle changes
4. Negative cultural practices and beliefs
5. Improved technology uptake and productivity
6. Land tenure, loss of soil biodiversity and degradation
7. Political instability and outbreak of wars
8. Level of Education

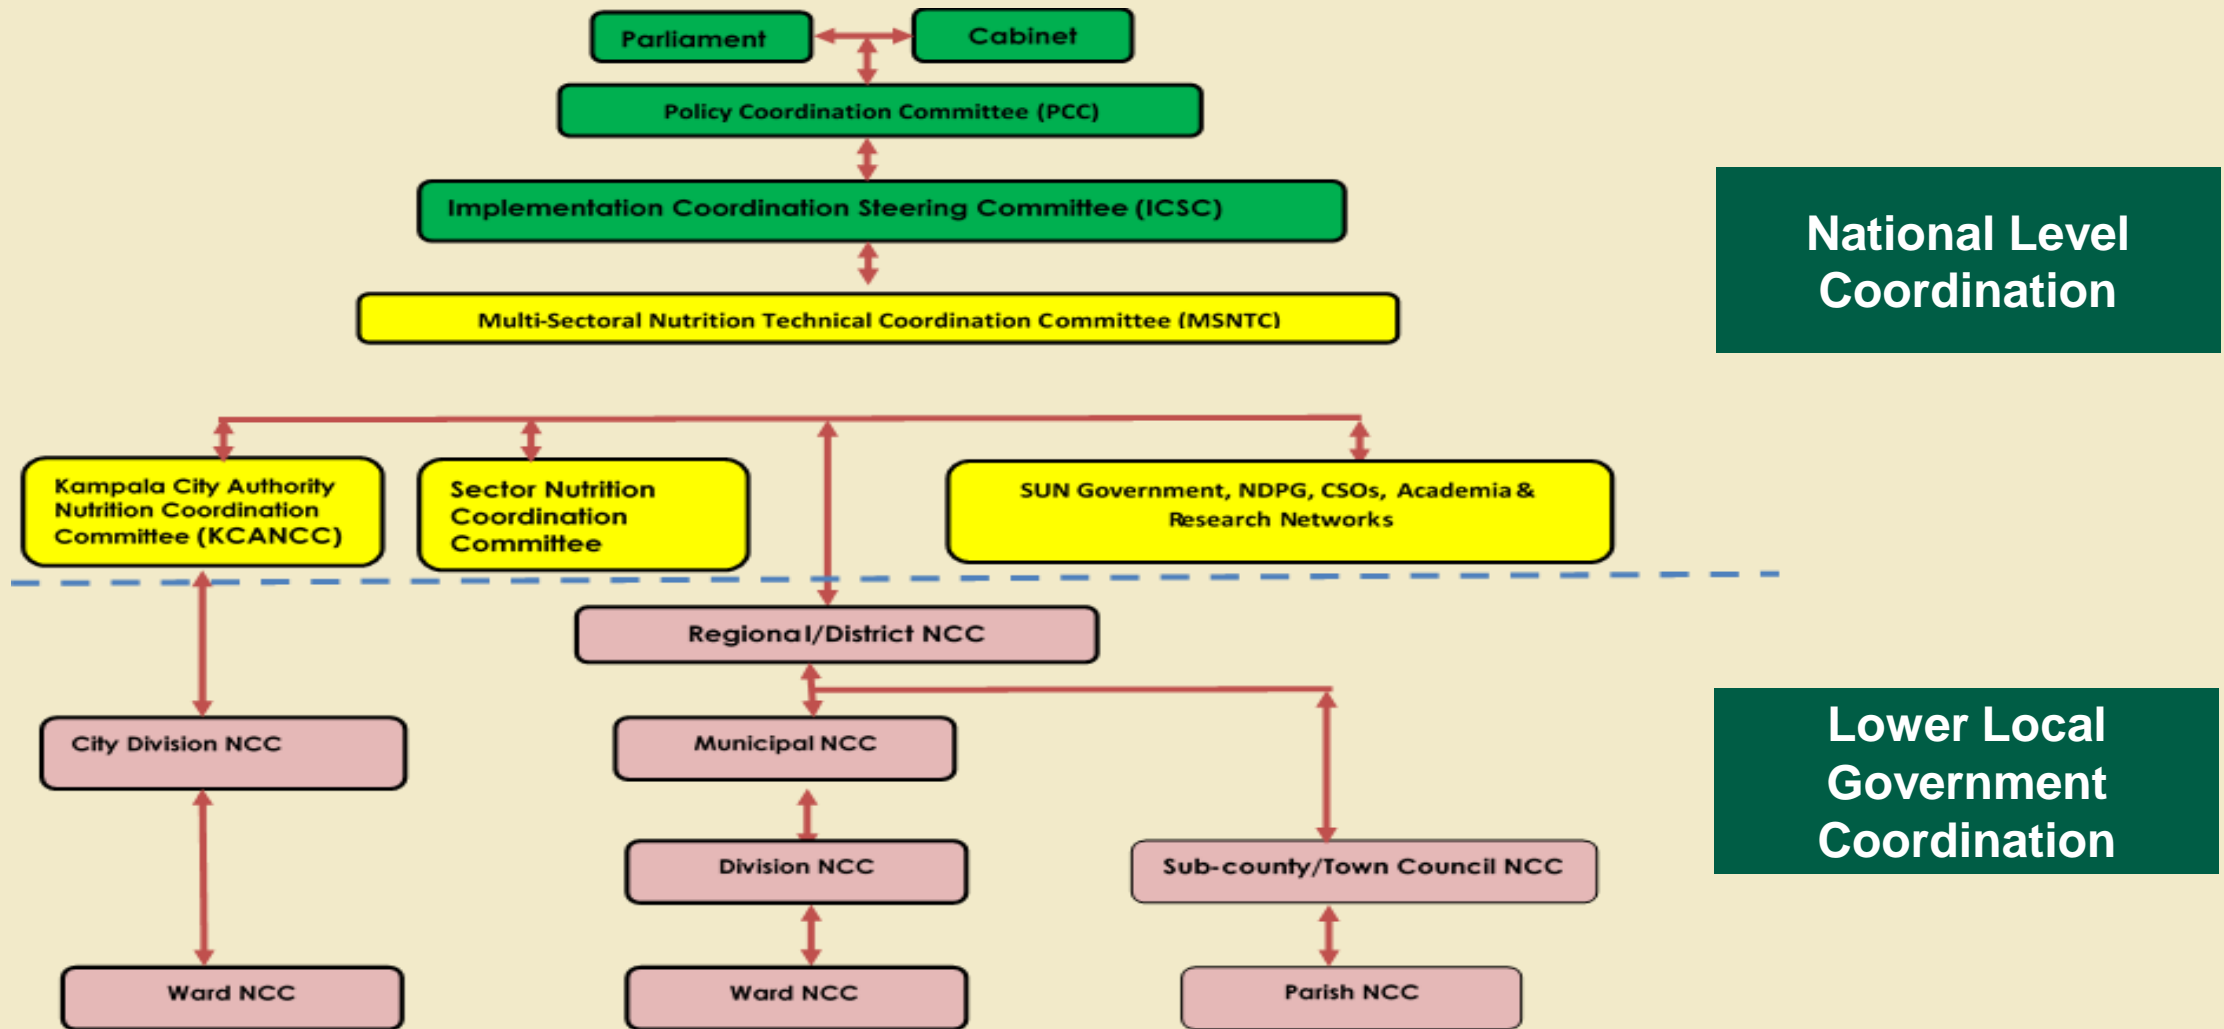

Systems and Outcomes/impact

Why Governance and partnerships? Coordination architecture, frameworks, foundations and tools

- **Good nutrition** is a key outcome of **improved food systems** characterized by multiple drivers across various Ministries Departments and Agencies (MDAs) /Systems;
- A call for relevant **multi-stakeholder action** to accelerate Zero Hunger
- Therefore, implementation governance and **coordination of diverse stakeholder actions and partnership** is critical for strengthening FST and Nutrition - policy integration, harmonization, synchronization and coordination across Government

Multisectoral coordination - IFCPP

National Level
Coordination

Lower Local
Government
Coordination

Coordination frameworks

- Country framework (Plan) specific to **Zero Hunger**: UNAP II, *Draft Zero Hunger Strategy, Food Systems Transformation (FST) Action Plan*, Flagship projects, Financing – innovative models to deliver the plan;
- Zero Hunger Monitoring, Evaluation, Accountability and Learning (MEAL) Plan and Implementing MDAs MEAL Plans-*Annual Work plans and performance reports*;
- MDA- Coordination Committees (CCs): NCC- **stakeholder interests and aspirations across Government**;
- Non State Actors platforms/Networks- **stakeholder interests and aspirations- inform country cooperation and assistance strategies**
- Stakeholder mapping reports;
- Implementation Capacity Assessment reports and Capacity Plans – **gaps and accelerate implementation**

Key milestones and opportunities: Policy and institutional foundation

Government of Uganda has put in place basic foundations for accelerating attainment of SDG 2 development outcomes

Political Stability	Wealth Creation: Financial inclusion, GROW, UWEP, YLP etc. Social Protection
Access to Health Services	Agro- industrialization programme- agricultural production and value addition
Infrastructure development: Roads and Electricity	NDP III and IV programmes and interventions aligned
Access to Universal Education and Skills	Access to markets: Expanding domestic regional and Continental (African Continental Free Trade Area)

Lessons and next Steps

- Sustainably develop and implement development aspirations including their integration in planning frameworks: ***policy analysis and formulation, implementation, evaluation***
- Consolidation of development gains for sustainable outcomes and impact
- Deliberate effort to coordinate stakeholder actions to foster relevance, coherence, consistence of actions for impact. ***Reduce duplication, waste and limited impact***
- Fast track implementation of flagship high impact interventions, multipliers: ***Plug the gaps identified in capacity assessment reports***
- Leverage the existing infrastructure to deliver on Agenda

Note: VNR process should assess the SDG 2 Governance and Partnership parameters to assess the extent of provision of an enabling environment for realization of SDG2 development aspirations
